

Ushindi Bienvenu

FULL STACK WEB DEVELOPER

jeanbienvenusb@gmail.com | [Github](#) | [LinkedIn](#) | [Twitter](#) | [Medium](#) | [Portfolio](#)

SUMMARY

Full stack software developer with extensive experience in developing, testing and deploying software applications. Passionate for creating innovative solutions and proficient in various development languages. I believe in turning complex software development problems into solutions, and my attention to detail has allowed me to develop solutions that exceed expectations. Comfortable working in a collaborative environment. Eager to learn new technologies and techniques.

SKILLS

Front-End: JavaScript, React, Redux, TypeScript, jQuery, HTML5, CSS3

Back-End: Ruby, Rails, PHP, Laravel, NodeJs, Express, MongoDB, MySQL, Postgresql

Tools & Methods: Git, GitHub, Mobile/Responsive Development, RSpec, TDD

Professional: Remote Pair-Programming, Teamwork, Mentoring, Detail-oriented

EXPERIENCE

MICROVERSE

Remote

Code Reviewer

Oct 2022 – Present

- Successfully conducted code and UI reviews for over 200 students, providing feedback and guidance to help them become better software developers.
- Collaborated with the technical team to develop and implement new coding standards and best practices.
- Researched and implemented new technologies and tools to improve the company's code review process.

Mentor (Volunteer)

July 2022 – Oct 2022

- Mentored over 15 junior web developers, helping them to understand and improve their code quality and performance.
- Advised and motivated students to stay in the program, leading to a high retention rate.
- Collaborated with other Student Mentors to foster an environment of learning and mentorship.
- Implemented new strategies to guide students on how to improve their coding skills.

HIGHLIGHTED PERSONAL PROJECTS

Remote
